

Legionella and Water Safety

Course Description

This course will give you an understanding of the arrangements for the management of water hygiene and Legionella, the control of hot water temperatures and the monitoring of lead in drinking water.

Accreditation and Approval

- The Royal Society for the Prevention of Accidents (RoSPA)
- Solicitors Regulation Authority (SRA)

Course Duration

This course will take you approximately 15 - 20 minutes to complete. This course can be re-studied at any time.

Overview of Content

- What legionella is and how it can be harmful
- How Legionnaires' disease can be contracted
- The legal requirements to manage the risks of legionella
- How to identify and manage the risks of legionella in water systems
- Other aspects of water safety in premises
- Drinking water provision and safety
- Hot water temperature control
- Managing lead in drinking water

Assessment

There will be a section at the end of the module with short multiple choice questions to test your knowledge. A pass mark of 80% is required to successfully complete the course.

Who is it for?

This course is suitable for all employees, including subcontractors and external partners.
